

Cleanroom wiper

无尘擦拭布在一个宽广的应用范围内设计，将污染物减少或消除到最低。无论你需要超洁净涤纶抹布清洗一个操作工具还是木浆复合无尘纸作为一般应用，我们都有合适的擦拭布提供给您。我们有多种非标准尺寸和包装方式，从被折叠前经浸泡的抹布到为最追求经济的烘干后散装抹布。在我们经过浸泡抹布系列中我们有系列的标准化或者非标准化的液体和包装方式供你选择。

所有抹布按照最高的质量标准生产，前后提供一致的性能。

Cleanroom wiper is engineered to minimize and remove cleanroom contamination in a wide range of applications. Whether you need a superclean polyester wiper for a critical clean of a process tool or a polycellulose wiper for general applications, we have the right wiper for you. We make a wide variety of non-standard sizes and packaging methods, from folded pre-saturated wipers in re-sealable pouches to dry wiper bulk packed for maximum economy. Within our pre-saturated range we have a wide range of standard and non-standard liquids and packaging choices.

All wipers are produced under quality standards, offering consistent performance very time.

Overview of SBL® wipers

P/N	Class	Dry	Pre-saturated	High absorbency	Low particle	Sealed-edge

Cleanroom wiper

The 115g laser sealed/ultrasonic sealed edged polyester wiper is a double knit 100% continuous-filament polyester. All four edges are laser cut/ultrasonic cut and sealed to prevent particle and fiber release. Cleaning and packing in cleanroom and double packed.

Specifications

- 100% polyester
- Double knit
- Weight 115g/SQM

Applications

- suitable for class 100-1000 cleanrooms

Features

- ultra low lint and particle level
- Economical

The 140g laser sealed/ultrasonic sealed edged polyester wiper is a double knit 100% continuous-filament polyester. All four edges are laser cut/ultrasonic cut and sealed to prevent particle and fiber release. Cleaning and packing in cleanroom and double packed.

Specifications

- 100% polyester
- Double knit
- Weight 140g/SQM

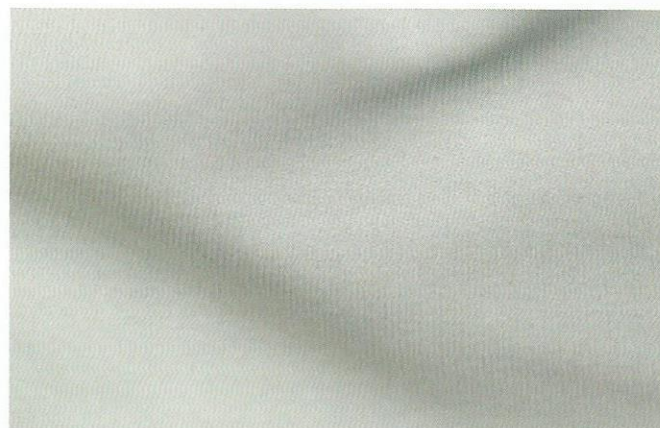

Applications

- suitable for class 10-100 cleanrooms

Features

- Good absorbency and wiping efficiency
- ultra low lint and particle level

Cleanroom wiper

Polyester wiper 160g with wider ultrasonic sealed border at 5mm is a double knit 100% continuous-filament polyester. All four edges are ultrasonic cut and sealed to prevent particle and fiber release. Cleaning and packing in cleanroom and double packed.

Specifications

- 100% polyester
- Double knit
- Weight 160 g/SQM

Applications

- Suitable for class 10-100 cleanrooms

Features

- Wider sealed edge ensures ultra lower lint and particle
- Economical

Cleanroom wiper

Composite polyester wiper 250g with ultrasonic sealed edge is a composite texture by 100% continuous-filament polyester. Embossed structure provide excellent absorbency and softness. Cleaning and packing in cleanroom and double packed.

Specifications

- 100% polyester
- Weight of 250g/SQM

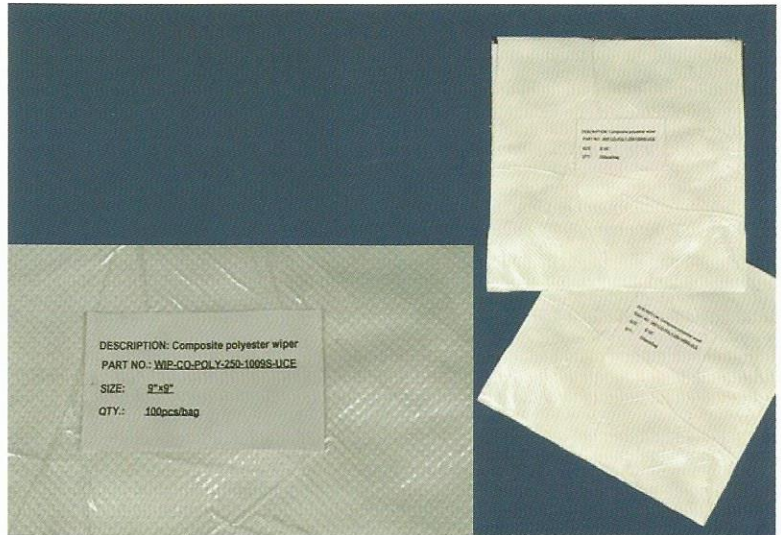

Applications

- Suitable for class 10-100 cleanrooms

Features

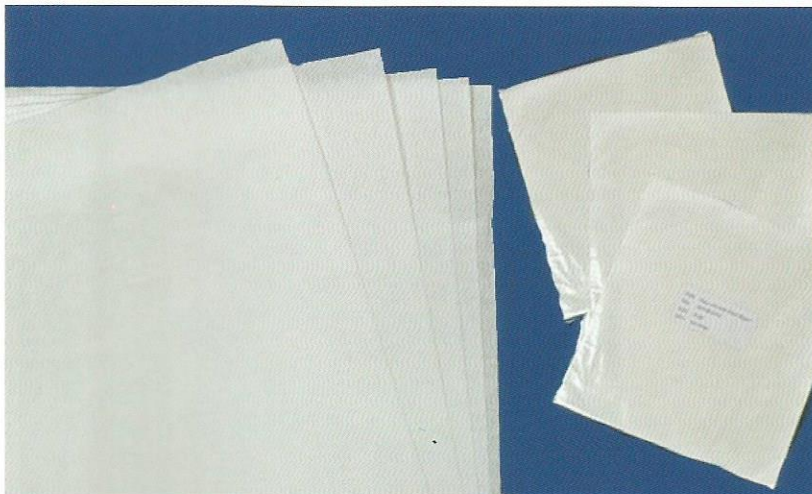

- extra absorbency and softness
- ultra low lint and particle level

68gsm polycellulose wiper is engineered with a much higher filament count thus making the wiper softer and more absorbent than the regular polycellulose wiper.

Specifications

- Consists of 55% of polycellulose and 45% of polyester

Applications

- Suitable for class 100-10000 cleanrooms

Features

- Softer and more absorbent than regular polyester wiper
- Cleaning scratch sensitive surfaces

Easy order informations

Cleanroom wiper

Microfiber wiper is constructed from 75% continuous-filament microdenier polyester and 25% nylon. These strong filaments have a high yarn-to-dust contact surface area, ensuring excellent wiping efficiency. Moreover, its wedge-shaped cross-section acts as squeegees for superior contact with surface to be cleaned, generating excellent absorbency and particulate entrapment. All four edges are laser cut / ultrasonic cut and sealed to prevent particle and fiber release. Cleaning and packing in cleanroom and double packed

Specifications

- 75% continuous-filament microdenier polyester and 25% nylon

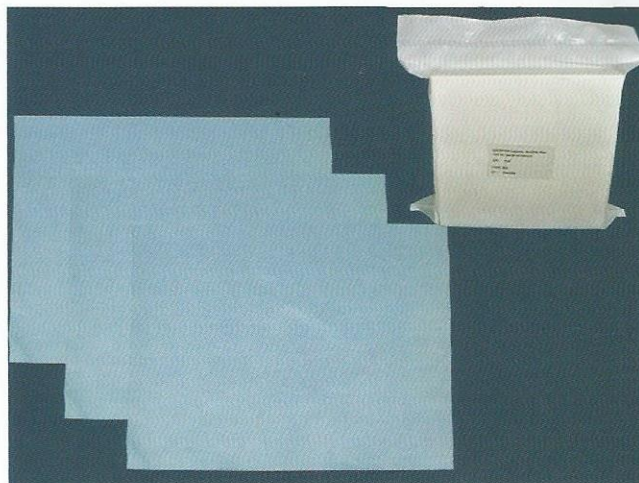

- Weight 180g/SQM

Applications

- Suitable for class 100-1000 cleanrooms

Features

- High chemical resistance
- Soft. cleaning scratch sensitive surfaces
- Superb absorbency
- Colour choice: Blue/White

Cleanroom wiper

The 140g pre-saturated wiper is made of 100% polyester with a certain proportion of industrial solvents such as alcohol IPA,. Cleaner than standard clean room wiper., soaked with different purity of IPA and DI water. Customers can choose solvent according to their own needs

Specifications

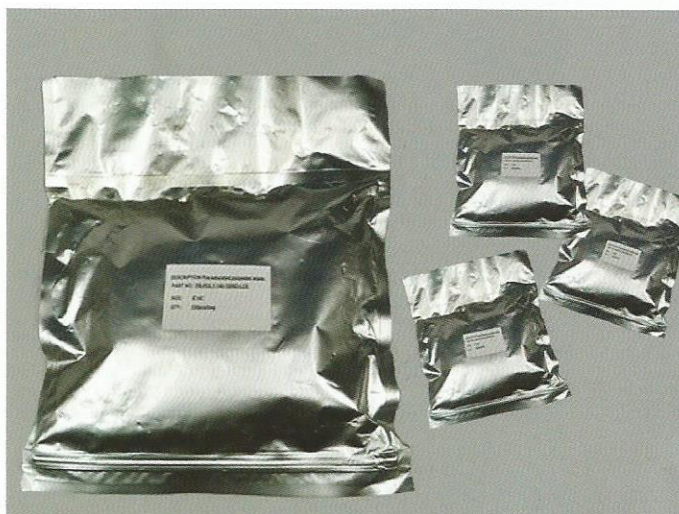

- 100% polyester
- Soaked with different purity of IPA and DI water
- Weight 140g/SQM
- Laser sealed/ultrasonic sealed edge. low ion release
- Choice of 9"x9", 6"x6", 4"x4" and other sizes upon customers' request.

Applications

- Suitable for ^{cleanroom} classrooms
- Cleaning of surfaces to control submicron particles, fiber, and chemical residue

Features

- Soft and do not scratch the surface
- Laser sealed/ultrasonic sealed edge. low ion release
- High chemical resistance
